

Powdercoating Colours

SPECIFIERS GUIDE

7578M
7022 Umbra Grey

The Product Range

DURALLOY™ POWDERCOAT RANGE™

Duralloy™ is a range of popular RAL solid and pearl colours, delivered with TGIC free warranty grade durable thermosetting powder.

The coating exhibits a decorative and durable finish with good colour retention, suitable for a broad range of interior and exterior applications.

Supported by a DGL Alumi Shield™ 10 year durability warranty and 10 year colour warranty on pre-treated architectural aluminium when applied by a DGL International Accredited Powder Coater.

The full range meets AAMA 2603 and are suitable for residential developments less than 4 levels that are further than 100 metres from salt water.

FLUOROSSET™ POWDERCOAT RANGE

Fluoroset™ are a range of subtle and neutral solid colours, delivered with warranty grade advanced ultra durable fluoropolymer thermosetting powder.

The advanced fluoropolymer resin technology and high performance pigments make Fluoroset™ the ideal choice for monumental and prestigious projects.

Fluoroset™ has been developed for use on architectural aluminium, including window and door frames, panel work, sunscreens and other exterior metal features where colour and gloss retention are critical.

Supported by a DGL Alumi Shield™ 35 year durability and 30 year colour warranty on pre-treated architectural aluminium when applied by a DGL International Accredited Powder Coater.

The full range meets AAMA 2605 and so are suitable for all major projects including those that are less than 10 meters from salt water.

DURATEC™ POWDERCOAT RANGE

Duratec™ is a range of solid, pearl and fun, bright solid colours, delivered with TGIC free warranty grade super durable thermosetting powder.

The coating is designed specifically for architectural applications where colour and gloss retention is critical. The combination of super durable resins and high performance pigments combine to deliver a finish that has superior gloss and colour retention compared with standard polyester powder coatings.

Supported by a DGL Alumi Shield™ 25 year durability and *20 year colour warranty on pre-treated architectural aluminium when applied by a DGL International Accredited Powder Coater.

The full range meets AAMA 2604 and are suitable for both residential and high rise buildings that are greater than 10 metres from salt water.

*Intenisty - 15 year colour warranty

ELECTRO™ POWDERCOAT RANGE

Electro™ are a range of unique anodised look finishes, designed to subtly change in appearance as light conditions alter in the day, delivered with warranty grade advanced super durable polyester thermosetting powder.

Unlike traditional anodic deposition finishes which are restricted to aluminium, architects, designers, and colour consultants will love the flexibility and freedom the Electro™ range palette of colours offers. With relative ease, Electro™ powder coatings can be applied to a wide variety of substrates such as aluminium, steel, and galvanised metal, making perfect colour co-ordination possible across many different construction elements, fixtures, and fittings.

Supported by a DGL Alumi Shield™ 25 year durability and 15 year colour warranty on pre-treated architectural aluminium when applied by a DGL International Accredited Powder Coater.

The full range meets AAMA 2604 and so are suitable for both residential and high rise buildings that are greater than 10 metres from salt water.

*All DGL Duralloy, Duratec, Electro and Fluoroset products are supported by DGL Alumi Shield warranties when applied by a DGL Accredited Powder Coater to the warranty specification on recommended project types and conditions. For more information visit dglpowders.com/warranties

DISCLAIMER: Any advice, recommendation, information, assistance or service provided by DGL International in relation to goods manufactured by it or their use and application is given in good faith and is believed by DGL International to be appropriate and reliable. However, any advice, recommendation, information, assistance or service provided by DGL International is provided without liability or responsibility PROVIDED THAT the foregoing shall not exclude, limit, restrict or modify the right entitlements and remedies conferred upon any person or the liabilities imposed upon DGL International by any condition or warranty implied by applicable legislation, regulation or other Government ordinance voiding or prohibiting such exclusion, limitation or modification. Duratec, Duralloy, Fluoroset, DGL International, the Squares device and Electro are trade marks.

DGL International Powder Coatings is part of the DuluxGroup (Australia) PTY Ltd an Australian company, that was registered in New Zealand in 2009. The lineage of the business goes back almost 100 years to the formulation of a paint company in Sydney, Balm Paints. In the 1940's the business was acquired by ICI Australia, who remained the custodian until 1998. The values of the company haven't changed, and are ingrained with Innovation, safety and respect for people and the environment. DGL International involvement with powder coating began in the 1960's when DuluxGroup acted as the distributor of Resicoat Powder Coatings and then quickly became a manufacturer of powder coatings with international markets spread far and wide.
